CIRCULAR LETTER

NUMBER : 10656/UN15.20.6/PP/2024

About the Student Satisfaction and Workload Survey and the Teaching and Learning Process for the 2024-2025 Academic Year. In connection with the routine evaluation process of the educational process, the Aquaculture Study Program intends to submit a questionnaire to be filled out by fellow students. The filling out of this questionnaire aims to improve and improve the quality of the educational process that has been carried out within the Aquaculture Study Program during the odd semester period of the 2024-2025 academic year.

Instructions for filling out the questionnaire :

1. Students who can fill in are those who actively participate in lectures (except those who take PKN/PKM and Thesis courses)
2. Students use the Nusa Cendana University Academic Information System (Siadiknona) account to fill out the questionnaire.
3. Students assess the educational process in general and are not limited to the educational process at one time, so be sure to read each question point carefully.

Thus we convey this information, for the participation of fellow students, the Aquaculture Study Program would like to thank you.

Kupang, December 10, 2024

Coordinator of the Aquaculture Study
Program,
